Class - Main, Method- Print Statement .. 15 time

1.
```java
public class Name {
    public static void main(String [] args) {
    System.out.println();
    }
}
```

2.
```java
public class Name {
    public static void main(String [] args) {
    System.out.println();
    }
}
```

3.
```java
pubic class Name {
    public static void main(String [] args) {
    System.out.println();
    }
}
```

4.
```java
public class Name {
    pubic static void main(String [] args) {
    System.out.println();
    }
}
```

5.
```java
pubic class Name {
    public static void main(String [] args) {
    System.out.println();
    }
}
```

```java
6. public class Name{
   public clas static void main (String [ ] args){
   System. Out. println ( );
   }
   }
```

```java
7. public class Name{
   public static void main (String [ ]args){
   System. out. println ( );
   }
   }
```

```java
8. public class Name {
   public. static. void main (String [ ] args){
   System. out. println ( );
   }
   }
```

```java
9. public class Name {
   public static. void main (String. [ ]args){
   System. out. println ( );
   }
   }
```

```java
10. public. class Name {
    public static void main (String [ ]args){
    System. out. println ( );
    }
    }
```

```java
11. public class Name{
    public static void main (String [ ] args){
    System.out.println. ( );
    }
    }
```

```java
12 public class Name{
    public static void main. (String. [ ] args){
    System.out.println ( );
    }
    }
```

```java
13. public class Name{
    public static void main (String [ ] args){
    System.out.println. ( );
    }
    }
```

```java
14 public class Name {
       public static void main(String. [ ] args){
          System.out.println ( );
       }
    }
```

```java
15. public class Name {
       public static void main (String [ ] args){
          System.out.println ( );
       }
    }
```
